NOTICE

DEPARTMENT OF MATHEMATICS

A departmental online meeting will be held on 9th of February (Wednesday), 2022 at 7 pm. to discuss about the following agenda:

1. Confirmation of minutes of previous meeting held on 10.12.2021.
2. Conduction of a Certificate Course of 30 hours duration, for developing the mathematical skill of the students.
3. To prepare a book list for purchase in the library.
4. To organize a Departmental seminar for the session 2021-22.
5. Miscellaneous.

All faculty members of the department are requested to attend the meeting positively.

Resolutions taken at the online meeting of the Department of Mathematics held on 9th of February, (Wednesday) 2022 at 7pm.

1. Minutes of the previous meeting held on 10.12.2021, has been confirmed.
2. It has been unanimously decided that a Certificate Course On Mathematical Logic will be organized for advanced learner students of Mathematics. Dr. Sumita Das and Ms. Sukti Sen have taken the responsibility to teach and conduct the whole course.
3. As directed by IQAC and Academic council, it has been decided that classes for this certificate course of 30 hours duration will start from 21.2.2022 (Monday) and onwards in both offline and online mode, beyond regular class routine. For enrollment of this course, a google form will be created by Dr. Malay Roy and it will be shared in the whatsapp group of the students. Syllabus and routine of this course will be decided by Dr. Sumita Das and Ms. Sukti Sen and will be shared among enrolled students. Certificate will be given among all concerned students after successful completion of the course.
4. Each faculty is requested to submit the book list of his/her area of teaching within next seven days to Dr. Malay Roy to prepare the general list of books for submission to the Librarian.
5. It has been decided that a Departmental seminar for the session 2021-22 will be organized before the end of this semester jointly with K. K. Das college under MOU.

The meeting ended with a vote of thanks.

DEPARTMENT OF MATHEMATICS

Course Name: Logical Tools & Techniques in Mathematics

Session : 2021 - 22

Synopsis: We have arranged a certificate course on Logical Tools & Techniques in Mathematics which is the study of formal logic in mathematics. This course will be taught in an online mode of 30 hrs duration . Mathematical logic is the analysis of methods of reasoning which helps the students to understand ambiguity and disagreement in the proof of mathematical theorems. There are several paradoxes like Russel's Paradox, Cantor's paradox that arises from set theory that leads to a contradiction. Mathematical Logic is a tool to overcome such contradictory hypotheses and helps to build better frameworks to consider disagreement. Mathematical logic is absolutely central to mathematics and advanced Computer science. Hope this course is an opportunity for our students to get acquainted with the basics of one of the pivotal areas in mathematics and use it in their higher study.

Syllabus for Certificate Course

1. Introduction, propositions, truth table, connectives like negation, conjunction, disjunction, conditional and biconditional propositions, converse, contrapositive and inverse propositions and logical operators. (8 hours duration)
2. General notions: Formal language, object and meta language, general definition of a Formal Theory/ Formal Logic. (6 hours duration)
3. Propositional Logic: Formal theory for propositional calculus, derivation, deduction theorem (Statement only), conjunctive and disjunctive normal forms, semantics, tautology, contradiction, logical consequence and equivalence truth tables, adequate set of connectives, applications to switching circuits. (16 hours duration)

E.M. BYPASS, BAGHAJATIN, KOLKATA - 700094

DEPARTMENT OF MATHEMATICS

Course Outcomes: Learning the basics of logic, logical tools and techniques in mathematics will help the students to sharpen the logical reasoning sense and analytical skills as these are necessary for the understanding and learning of mathematical proofs. Moreover, it is an interdisciplinary course used in other subjects, specially in Philosophy and Education. As an outcome students can build better frameworks in advanced studies of mathematics and computer science and in various research fields associated with mathematics.

Fees Structure: The course is absolutely free of cost.

Evaluation: A theoretical examination will be conducted on the completion of the course in online mode.

Certificate: Certificate will be distributed after successful completion of the course and getting 60% marks.

In today's rapidly advancing technological landscape, the need for a comprehensive "Machine Learning" course is more pressing than ever. Machine learning, a subset of artificial intelligence, empowers systems to learn and improve from experience without explicit programming. As businesses and industries increasingly harness the power of data, machine learning plays a pivotal role in extracting meaningful insights, predicting trends, and automating decision-making processes. A dedicated course on machine learning is essential to equip individuals with the knowledge and skills to navigate this transformative field. Such a course not only demystifies complex algorithms and models but also provides practical, hands-on experience in working with real-world datasets. As machine learning applications become ubiquitous across sectors, from healthcare and finance to marketing and technology, a specialized course ensures that professionals are well-prepared to harness the potential of machine learning, contributing to innovation and staying competitive in a data-driven era. With this consideration in mind, the current Certificate course, focusing on "Machine Learning," is tailored for students in the 2nd and 4th semesters within the Department of Computer Science. The course has been strategically developed so that upon its successful conclusion, students will possess a comprehensive understanding of Machine Learning techniques and tools.

COURSE OVERVIEW:

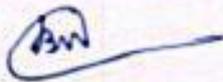

In today's rapidly advancing technological landscape, the need for a comprehensive "Machine Learning" course is more pressing than ever. Machine learning, a subset of artificial intelligence, empowers systems to learn and improve from experience without explicit programming. As businesses and industries increasingly harness the power of data, machine learning plays a pivotal role in extracting meaningful insights, predicting trends, and automating decision-making processes. A dedicated course on machine learning is essential to equip individuals with the knowledge and skills to navigate this transformative field. Such a course not only demystifies complex algorithms and models but also provides practical, hands-on experience in working with real-world datasets. As machine learning applications become ubiquitous across sectors, from healthcare and finance to marketing and technology, a specialized course ensures that professionals are well-prepared to harness the potential of machine learning, contributing to innovation and staying competitive in a data-driven era.

With this consideration in mind, the current Certificate course, focusing on "Machine Learning," is tailored for students in the 2nd and 4th semesters within the Department of Computer Science. The course has been strategically developed so that upon its successful conclusion, students will possess a comprehensive understanding of Machine Learning techniques and tools.

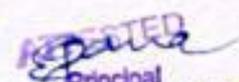

OBJECTIVES :

The course is outlined to fulfill the following objectives –

- Understanding popular ML algorithms with their associated mathematical foundations for appreciating these algorithms.

Head
Department of Computer Science
Sammilani Mahavidyalaya, Kolkata-700075

ACCEPTED

Principal
Sammilani Mahavidyalaya
E.M.Bypass, Baghajatin
Kolkata - 700 094

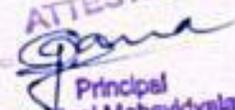

- Make aware of the role of data in the future of computing, and also in solving real-world problems using machine learning algorithms.
- Help connect real-world problems to appropriate ML algorithm(s) for solving them. Enable formulating real world problems as machine learning tasks.
- Appreciate the mathematical background behind popular ML algorithms.
- Ensure awareness about importance of core CS principles such as algorithmic thinking and systems design in ML

COURSE CURRICULUM

(Duration: 32 hours)

UNIT	TOPIC	SUBTOPIC	Hours
			Theoretical
1	Foundations for ML	1.1 – ML Techniques overview 1.2 – Reinforcement Learning 1.3 – Unsupervised Learning 1.4 – Supervised Learning 1.5 – Validation Techniques (Cross-Validations) 1.6 – Feature Reduction/Dimensionality reduction 1.7 Principal components analysis (Eigen values, Eigen vectors, Orthogonality)	04
2	Clustering	2.1 – Distance measures 2.2 – Different clustering methods (Distance, Density, Hierarchical) 2.3 – Iterative distance-based clustering; 2.4 – Dealing with continuous, categorical values in K-Means 2.5 – Constructing a hierarchical cluster 2.6 – K-Medoids, k-Mode and density-based clustering 2.8 – Measures of quality of clustering	06
3	Classification Naïve Bayes Classifier	3.2 – Model Assumptions, Probability estimation 3.2 - Required data processing 3.3 – M-estimates, Feature selection: Mutual information	06

		3.4 - Classifier	
4	K-Nearest Neighbors	4.1 – Computational geometry; Voronoi Diagrams; Delaunay Triangulations 4.2 – K-Nearest Neighbor algorithm; Wilson editing and triangulations 4.3 – Aspects to consider while designing K-Nearest Neighbor	06
5	Support Vector Machines	5.1 – Linear learning machines and Kernel space 5.2 – Making Kernels and working in feature space 5.3 – SVM for classification and regression problems	06
6	Neural Network Learning	6.1 – Role of Loss Functions and Optimization, 6.2 – Gradient Descent and Perceptron/Delta Learning, 6.3 – MLP, 6.4 – Backpropagation	04

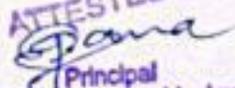

COURSE OUTCOME:

Upon completion of the "Machine Learning" course, participants can expect to achieve the following outcomes:

- 1 Foundational Knowledge:** Acquire a solid understanding of the fundamental concepts and principles of machine learning, including supervised and unsupervised learning, as well as reinforcement learning.
- 2 Algorithm Implementation:** Master the implementation of various machine learning algorithms, including regression, classification, clustering, and dimensionality reduction, using popular frameworks and tools.
- 3 Model Evaluation and Selection:** Learn to assess and compare the performance of machine learning models using appropriate evaluation metrics, enabling informed decision-making in model selection.
- 4 Project Development:** Undertake a comprehensive capstone project, integrating the knowledge and skills acquired throughout the course to solve a real-world problem, fostering creativity and critical thinking.
- 5 Continuous Learning:** Cultivate a mindset of continuous learning and stay informed about emerging trends and advancements in machine learning, positioning participants to adapt to the evolving landscape of this dynamic field.
- 6 Certification:** Receive a certification upon successful completion of the course, validating the participant's mastery of machine learning concepts and practical application, enhancing their professional profile in the field.

**CERTIFICATE COURSE
ON
FOOD: A CULINARY HISTORY OF INDIA**

COURSE OVERVIEW

Eating is an indispensable human activity. Actually Gastronomy governs the whole life of man. In fact, civilization itself began in the quest for food. Transition from food-gathering stage to food-producing stage has brought the civilization.

Food history is an interdisciplinary field that examines the history and the cultural, economic, environmental and sociological impacts of food and human nutrition. Culinary history studies the origins and development of the foodstuff, equipment and techniques cookery, the presentation and eating of meals.

Food is key to understanding history and geography, spirituality, gender politics and labour relations of any region. Food history provides us with a prism through which to analyse the dynamics of past communities. The rise of food history is welcome and long overdue.

COURSE CONDUCTOR : Department of History,
Sammilani Mahavidyalaya.

COURSE DESIGN : Certificate Course

COURSE OBJECTIVES:

- * To be able to articulate the sociological and cultural aspects of food.
- * To be able to describe the historical context of the current food system.
- * To be able to identify the inequities within the food system and their Implications.
- * To be able to assess the health, social and environmental consequences of the Food.

Sanjay Gangopadhyay

COURSE OUTCOME :

- Religious and Regional social identity
- Habits and nature of human through food practice.
- Exploring food history tradition of the past can be identified.
- Dietary history of the past becomes known to us.
- Nutritional history, history of dining and manners can be identified.

BENEFITS :

- A Food historian can work in hotels, restaurants, airlines, cruise liners etc
- A Food historian can pursue higher studies and research.
- A Food historian can start his entrepreneurial venture

Syllabus of FOOD: A CULINARY HISTORY OF INDIA

- Indian history and culture
- Food and diet in History
- Indian cuisine timeline: from Indus valley civilization to British Raj
- Historical impact of religion on cuisines
- Regional and sub-regional Indian cuisine
- Factors driving globalization of Indian cuisine
- Changes in cooking in the 21st century

COURSE DESIGN

1. **Course Title:** Mental Health Awareness
2. **Organising Department:** Education
3. **Course Duration:** 30 Hours
4. **Offered to:** Honours students of Education Department
5. **Mode:** Hybrid Model of teaching-learning
6. **Course overview:** Mental health awareness has never been more important. In this time of unprecedented change, pressure of online class, sitting at home all day and following class in online has put on tremendous pressure on the students. Overwhelming feeling of uncertainties has taken a toll on mental health and wellbeing of the students. This is a **general Mental Health Awareness course** designed for anyone with little or no training in mental health and who would like to understand a little more about mental health. It will help raise awareness about mental health issues.
7. **What the students will learn**
 - Explore Mental Health Awareness in an interactive way, recognize common signs and symptoms, be able to respond and support
 - Look after your own mental wellbeing via self-assessments, exercises and useful resources.
 - Talk about Mental Health Awareness, they will get conversation tips, useful phrases and expressions to use, ways to start a conversation and offer support.
 - Know how to communicate and offer support to family members, co-workers, employees, friends who have mental health problems.
8. **Course objectives:**
 - To make the students aware about concept of adjustment and maladjustment.
 - To make them aware about the importance of Mental health and mental well-being.
 - Make them aware about common signs, symptoms, and conditions of maladjustment.
 - To make them aware about the coping strategies for stressful situation.
 - To make them aware of ways to talk about mental health, how to support someone and how to be an advocate of Mental Health Awareness and share what you have learned with others
9. **Career prospect:** Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, related to others, and make healthy choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.
10. **Faculty requirement:** Internal faculty member of Department of Education,
11. **Modern Pedagogy:** Hybrid Model of teaching-learning
12. **Course fee:** Nil
13. **Intake capacity:** 95
14. **Course hour:** 30 hours
15. **Course Duration:** 1 class= 1 hour, 3 classes per week (4 weeks)
16. **Detailed Syllabus of the Course:**
 - **Concept of Mental Health:** Definition mental health, what is mental illness, signs and symptoms of mental illness. Difference between Mental health and illness. Different treatment available for mental illness. Concept of wellbeing
 - **Concept of Adjustment:** What is adjustment, what is maladjustment, causes of maladjustment. Different types of problem behavior.

- **Communication and looking after ourselves:** Concept of stress, Stress and stressors.
- **Lifestyle changes to better mental health-** mind management skill to better mental health, concept about worrying, anxiety and depression- signs and symptoms. Mental health stigma, developing positive mental health.
- **Mind management skill to better mental health-** Coping strategies and therapies, brain training techniques, how to develop positive mental attitude.

17. Evaluation method: Continuous Internal Evaluation and Final Assessment on Last day

Assesment	Marks
MCQ type questions covering all the units	20
Internal Assessment: Wall magazine, group discussion	20
Project	05
Attendance	05
Total	50

18. Marking Procedure:

Attendance Percentage= Total number of lectures attended

Total Number of Lecture Head

Total Marks in Attendance= 05

Attendance Percentage	Marks Allotted
Above 90	5
80-89	4
70-79	3
60 – 69	2
Below 60	Not eligible for certificate

19. Table for Qualification

Total Score (out of 50)	GRADE
45-50	O- Outstanding
40-44	E- Excellent
35-39	A-Very Good
26-34	B-Good
20-25	C-Fair
Below 25	F- Failed

20. Course Outcome:

- Combat the stigma surrounding poor mental health.
- Understand common mental health problems.

NOTICE

It is our pleasure to announce that the Department of Geography is going to organize a Certificate Course on "Basics of Total Station: Advanced Surveying and Mapping Tools in Geography" from 18.04.2022 for the students of 6th semester of the department. It is a course of 30 hours duration and certificates will be given by the college after successful completion of the course. All interested students are asked to contact with the Department of Geography, for further details.

CERTIFICATE COURSE

Course Plan

COURSE TITLE: BASICS OF TOTAL STATION; ADVANCED SURVEYING AND MAPPING TOOLS IN GEOGRAPHY

ORGANIZING DEPARTMENT: Department of Geography

NAME OF THE RESOURCE PERSONS:

Sri Kamonashish Mistry, Assistant Professor, Department of Geography

Sri Nayan Roy, SACT, Department of Geography, Sammilani Mahavidyalaya

Sri Achintya Pramanik, SACT, Department of Geography, Sammilani Mahavidyalaya.

COURSE DURATION: 30 Hours

OFFERED TO: Students of 6th semester of the Department of Geography

MODE: Offline

COURSE OVERVIEW:

'Total Station Theodolite' is modern optical, electronic equipment used in surveying. It is basically an electronic transit theodolite, integrated with electronic distance measuring device and can measure horizontal angle, vertical angle, distance between two points, and three co-ordinates (x,y,z) of the observed points. The microprocessor unit, built within the instrument, processes these collected data which can be downloaded to computer for further processing and application. Land survey work can be carried out very fast using this instrument and its accuracy level is also very high. Because of such advantages, hands-on knowledge about the components and functions of total station is highly recommended for the students of geography.

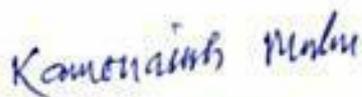

OBJECTIVES :

The course is outlined to fulfill the following objectives –

- To familiarize the students with the instrument.
- To enable them to use the instrument in the field.
- To enhance their skill of surveying by making the process fast and accurate.
- To enhance the scope of employability of the students.

ATTESTED

COURSE OUTCOME:

On completion of the course, a student will be able to –

- Understand how to set up total station in a right way.
- Use and operate the instrument in the field.
- Do survey work at a faster rate in the field and in a more efficient manner.
- Extract the data and process the same.
- Understand the principles of GPS and GIS in surveying.
- Acquire the essential skill and knowledge to opt for surveying as a profession.

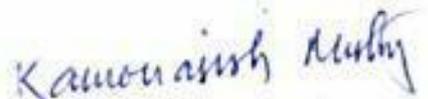

Thus, the course will provide the students of Geography with additional skills and knowledge that are relevant to their field of study and will also enhance their employability.

CERTIFICATE COURSE ON YOGA

COURSE OVERVIEW

The 30 hours yoga course at the college is meticulously crafted to introduce students to the ancient practice of yoga and its diverse benefits. This programme combines theoretical knowledge with practice sessions, aiming to impart a thorough comprehension of yoga as a holistic approach to well-being and self awareness.

COURSE OBJECTIVES :

- To Introduce fundamental concepts and principles of yoga.
- To Cultivate mindfulness and self-awareness through yogic practices.
- To Foster a deeper understanding of mind-body connection.
- To Promote physical and mental health through yogic techniques.

COURSE OUTCOMES:

- To Improve physical flexibility, strength and balance.
- To Enhance stress management and relaxation techniques.
- To Heighten self-awareness and mindfulness in daily life.
- Better understanding of the holistic benefits of yoga for overall wellbeing.

COURSE BENEFITS:

- Enhanced overall physical and mental well being.
- Improved concentration and focus for academic and personal endeavors.
- Tools for managing stress and anxiety effectively.
- Skills to maintain a healthy and balanced lifestyle through a practice of yoga.

MEETING ON 16.3.2022

The meeting started at 12:00 noon in the Staff room of the Department. The following members were present in the meeting:-

1. Dr. Paramita Dasgupta
2. Sri. Karanarish Kishy
3. Smt. Aradhuti Mukherjee
4. Smt. Sakeli Ghosh
5. Sri Achintya Pramanik
6. Sri Nayan Roy.

- ① The minutes of the previous online meeting held on 10/2/22 were read & confirmed.
- ② The Head of the Department placed the proposal of introducing Add on/Certificate/Value added courses for the students of the Department as per the resolution adopted in the ^{meeting of the} Academic Council meeting. She also mentioned that the resolution was adopted keeping in mind the holistic development of the students as emphasized by NAAC. After thorough discussion on the matter, it was resolved unanimously that Certificate course, of at least 30 hours duration, be started from the next month. Three topics were suggested by the faculty, which they thought would help the students to develop their skill & ability. These were -
 - a) Course on Total Station theodolite.
 - b) Drone-based remote sensing.
 - c) Computer application.

It was further resolved that the course should be free of cost. The house decided to frame the proposal within a week & inform the students accordingly. Through

in Colaboration with GEO-SOLUTION**

DEPARTMENT OF GEOGRAPHY

CERTIFICATE COURSE

Course Plan

COURSE TITLE: Drone Based Remote Sensing: An Advanced Mapping Technology

ORGANIZING DEPARTMENT: Department of Geography in collaboration with Geo-Solution

COURSE DURATION: 35 Hours

OFFERED TO: Students of 4th and 2nd semester of the Department of Geography

SESSION: 2021-2022

MODE: Offline

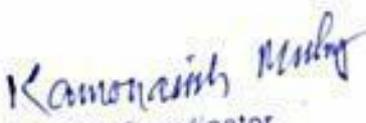

NAME OF THE RESOURCE PERSONS:

- Sri Ayan Ghosh, GIS Engineer, Department of PHE, Government of West Bengal and Educational Coordinator, Geo-Solution
- Smt. Poulomi Karmakar, Educational Instructor, Geo-Solution
- Sri Kamonashish Mistry, Assistant Professor, Department of Geography, Sammilani Mahavidyalaya

COURSE OVERVIEW:

Remote sensing technique is a very effective tool for systematic geographical study and hence a student of geography must have some knowledge on remote sensing. It has been noted that the curriculum of geography, prescribed by different universities mostly focus on satellite based remote sensing. But this satellite based remote sensing is highly expensive and data acquisition is also not a very easy process. Whereas, Unmanned Aerial Vehicle (UAV) based remote sensing i.e drone based remote sensing consumes no fuel, it does not require maintenance and is a more

Sammilani Mahavidyalaya

stable and reliable system. It can also be flexibly equipped with various sensors such as optical infrared LiDAR. Because of its various advantages, in recent years this technique has attracted attention of the scientific researchers and industry and has become an essential remote sensing platform. It has been widely used in agriculture, forestry, mining, and in other industries. Using the high resolution images captured by drone, we can prepare landuse-land cover map, contour map, relief map and many more with high level of accuracy. This technique is also very helpful for hazard and disaster mapping. Because of such broad application prospects, we have designed a Certificate Course on 'Drone-based Remote Sensing: An advanced mapping technology' for the 4th and 2nd semester students. This is a course of 35 hours duration and is to be held in collaboration with the organization named 'Geo Solution'. The course will definitely help the students to bridge the gap between their knowledge on remote sensing and the most modern advancement in the subject and will also add value to their professional skill.

OBJECTIVES:

The course is designed to fulfill the following objectives –

- To familiarize the students with the types, components, application, advantages and disadvantages of UAV.
- To make them well conversant with the process of UAV survey methodology and image processing and mapping techniques, both theoretically and practically.
- To provide the students with the facility of hands-on training on drone.
- To enable the students to be up-to-date with the modern trends in Geographical study.

Structure and kinds of Anumana (inference), Vyapti (invariable relation), Hetvabhasas (fallacies of inference).
- **Data Interpretation:** Sources, acquisition and classification of Data. Quantitative and Qualitative Data. Graphical representation (Bar-chart, Histograms, Pie-chart, Table-chart and Line-chart) and mapping of Data. Data Interpretation. Data and Governance.
- **Higher Education System:** Institutions of higher learning and education in ancient India. Evolution of higher learning and research in Post Independence India. Oriental, Conventional and Non-conventional learning programmes in India. Professional, Technical and Skill Based education. Value education and environmental education. Policies, Governance, and Administration.
- **Comprehension:** A passage of text be given. Questions be asked from the passage to be answered.

14. Evaluation method: Continuous Internal Evaluation and Final Assessment on Last day

Assesment	Marks
MCQ type questions covering all the units	30
Internal Assessment: 10	10
Project	05
Attendance	05
Total	50

15. Marking Procedure:

Attendance Percentage= $\frac{\text{Total number of lectures attended}}{\text{Total Number of Lecture Head}}$

Total Number of Lecture Head

Total Marks in Attendance= 05

Attendance Percentage	Marks Allotted
Above 90	5
80-89	4
70-79	3
60 – 69	2
Below 60	Not eligible for certificate

ATTESTED

 Principal
 Sammilani Mahavidyalaya
 E.M.Bypass, Baghajatin
 Kolkata - 700 094

16. Table for Qualification

Total Score (out of 50)	GRADE
45-50	O- Outstanding
40-44	E- Excellent
35-39	A-Very Good
26-34	B-Good
20-25	C-Fair
Below 25	F- Failed

17. Course Outcome:

- The course will enable the student to develop in them the teaching and research aptitude.
- It will help them to have the basic knowledge about research methodology, Communication skill and higher education system if our country.
- It will prepare them for the various competitive examinations.
- Those who are aspiring to be teachers they will be benefited from this course.
- This course will help them to complete their present curriculum with better knowledge.
- It will develop in them reasoning and critical thinking abilities.
- They will be able to write research proposals.

18. Course Benefit:

- Preparation for competitive exam.
- Secured Job opportunities.
- Better concept about the relevant topics.
- Confidence building among students

Date26.09.2022...

Minutes of the first meeting of the IQAC held on Monday, September 26, 2022 at 12 noon in the IQAC Room

The meeting commenced with the Teacher-in-Charge taking the chair. The agenda were taken up for discussion one by one and the following resolutions were adopted.

1. The minutes of the last meeting held on June 29, 2022 were read and confirmed.
2. Dr. Srikanta Malakar, Coordinator of the IQAC, reported the progress of AQAR 2021-22 preparation including the status of different criteria. He told that the last date of submission of filled in criteria to the respective coordinator was 31.08.2022. The respective coordinators of the AQAR 2021-22 preparation team expressed their opinion to extend the date of submission of filled in criteria from 31.08.2022 to 30.11.2022 as they have enormous work regarding the closing ceremony of Silver Jubilee Celebration of our college on 12.12.2022.

Resolved unanimously that all the criteria be completed and submitted to the respective coordinators latest by 30.11.2022 in order to ensure timely submission of the AQAR by 31.12.2022.

3. Resolved unanimously that Department-wise orientation programmes regarding the syllabus for the new students of Semester I be conducted in their initial classes, respectively.
4. Resolved unanimously that the necessity of commencement of training/ orientation programme for improving ICT/ computing skills for the students and the faculty members be appreciated and approved; and Dr. Bapan Kumar Maity and Smt. Brototi Mondal, Convener and Co-convener of the Information Technology Resource Management (ITRS) Sub-committee respectively, be requested to initiate the necessary process.
5. The members agreed to the proposal of the Coordinator of IQAC, Dr. Srikanta Malakar regarding the necessity of more collaborations/linkages for Faculty exchange, Students

exchange, Add-on-courses, Internship of students, Field trip, On-the-job training, Research,

etc. with Academia as well as Industry, and resolved that the Teacher-in-Charge be requested to take necessary initiative in this regard including signing of Memorandum of Understanding (MoU) with other institutions/industry, wherever required.

6. Regarding the promotion of Dr. Malay Roy, Assistant Professor in Mathematics and Smt. Kasturi Kar, Assistant Professor in History under Career Advancement Scheme (CAS), Dr. Srikanta Malakar, Coordinator of the IQAC, reported that the papers submitted by the two incumbents were thoroughly scrutinised by the Scrutiny Committee of IQAC and also the report of the Scrutiny Committee of IQAC has been forwarded to the Teacher-in-Charge.

Resolved unanimously that the Teacher-in-Charge be requested to take necessary initiative in this regard.

Dr. Srikanta Malakar, Coordinator of the IQAC, reported that papers regarding re-fixation of pay under Career Advancement Scheme (CAS) of Dr. Mrinal Chandra Halder, Assistant Professor in Bengali, was thoroughly scrutinised by the Scrutiny Committee of IQAC and also the report of the Scrutiny Committee of IQAC has been forwarded to the Teacher-in-Charge.

Resolved unanimously further that the Teacher-in-Charge be requested to take necessary initiative in this regard.

Miscellaneous:

- I. Dr. Srikanta Malakar, Coordinator of the IQAC, opined that the Research Subcommittee should be more proactive regarding research activities in different fields. He also suggested that our college should sanction adequate amount to run the research activities internally apart from grant received from UGC or other funding agencies.

Resolved unanimously that the Teacher-in-Charge be requested to take necessary initiative in this regard.

- II. Resolved unanimously that special classes for Value-based education (Ref.: Institutional preparedness for NEP: 3. Skill development) to enrich moral values and

- ethics of the students be introduced for the students in online/ offline mode, and Smt. Sangita Dey Sarkar, Associate Professor in Philosophy, be entrusted with the responsibility of planning and executing the programme.
- III. Resolved unanimously that at least one vocational course (Ref.: Institutional preparedness for NEP: 3. Skill development) for all students before graduating from the college, be introduced, and Smt. Sangita Dey Sarkar, Associate Professor in Philosophy, be entrusted with the responsibility of framing and executing the course.
- IV. Resolved unanimously that a short-term course in Sanskrit language (Ref.: Institutional preparedness for NEP: 4. Appropriate integration of Indian Knowledge system) be started for the students of the college in online/ offline mode, and Dr. Sudeshna Basu, Assistant Professor in Sanskrit, be entrusted with the responsibility of framing and executing the said course.
- V. Resolved unanimously that the proposal of Dr. Bapan Kumar Maity, Librarian and the Convener of Information Technology Resource Management (ITRM) Sub-committee regarding the change of domain name of the college website from 'dot org' (.org) to 'dot ac dot in' (.ac.in), be appreciated and approved; and Dr. Maity and Smt. Brototi Mondal, Assistant Professor in Computer Science and Co-convener of the ITRM Sub-committee be requested to complete the necessary process.
- VI. Dr. Srikanta Malakar, Coordinator of the IQAC placed the feedback obtained from students and other stakeholders. Necessary discussion was made on the feedback and a report was prepared on that basis.
- Resolved unanimously that the feedback report be accepted and sent to the Governing Body for its approval.

As there was no other agendum to discuss, the meeting ended with a vote of thanks to the chair.

- 2) A brochure or Course plan containing the following information—

Course title: Usage of internet

Course overview: helping students to develop soft skills and join a sector as per their caliber as digitization is in demand.

Objectives: 1) to comprehend the digital world.

- 2) to make them aware about global political and environmental events through internet.
- 3) to help students for academic and motivational purpose.
- 4) to help those who want to go for professional course.

Organizing department: department of political science

Name of the resource persons: Rahul Sengupta

Course duration: 30 hours

Mode of teaching: offline

Course content/ curriculum:

- 1) What is computer?
- 2) Importance of internet in gathering information about socio-political-environmental issues.
- 3) Importance of internet in the field of education
- 4) Usage of scanner and applications for uploading of file.

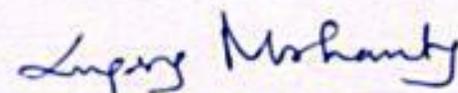

Course fee: nil

Course outcome: Enabling students to use the internet so that they may be enlightened about international events, climate change and ecological disruptions often caused by policy makers.

Date wise attendance sheet with signature of the participants

USAGE OF INTERNET

Objectives of the course:

1. To comprehend the digital world
2. To equip students to face adverse situation during pandemic
3. To help for both academic and motivational purpose
4. To help those who want go for professional course

Opportunities:

Helps young aspirants, to develop soft skills and join any sector, as per their calibre as digitization is in demand. The student can collect e-resource for knowledge, research and to pursue higher education.

Course Contents

1. What is Computer? Difference between hardware and software
2. Digital or Online Education and its relevance
3. Importance of Internet in field of education
4. Usage of scanner and applications for uploading of file

Objectives:

1. To bring together students who are inclined towards performing arts.
2. Creating an atmosphere of tranquility so as to motivate the students to shed their inhibitions and surrender fully to the flow of drama enactment.
3. Thereby creating and installing a sense of self confidence and belief amongst students.
4. Sowing the seeds of creativity amongst students thereby creating future performers in the field of performing arts.

Outcome:

The show was performed at The gates of the college premises. Needless to say it was a road stopper. The students carried out their roles flawlessly and it was something that people were witnessing for the very first time. The students were jubilant of their efforts and audience were ecstatic. The aim for which this whole process was initiated was fulfilled as students started enquiring about the next workshop from the very next day.

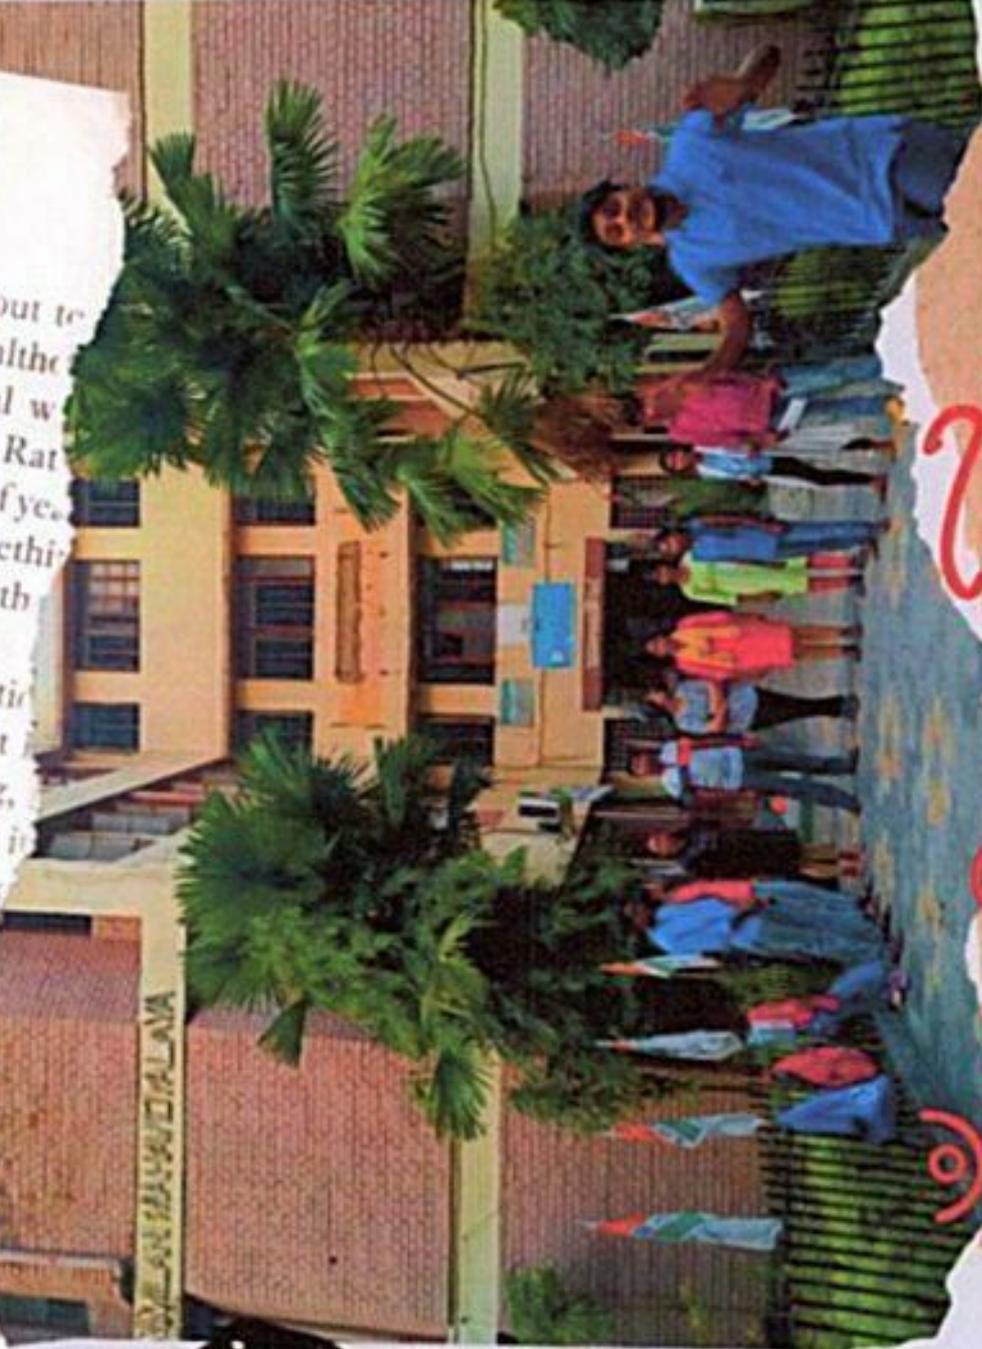

Curriculum:

1. Three days a week of 3 hours each for 5 weeks.
2. One hour of interactive session and group discussion.
3. Two hours of drama enactment.
4. Final rehearsal of 8 hours.
5. Two dress rehearsal of 6 hours each.

NOTICE

DEPARTMENT OF MATHEMATICS

DATE : 02. 09. 2022 (Friday)

A meeting will be held of the faculty members of department of Mathematics, Sammilani Mahavidyalaya, Baghajatin, on 9th of september (Friday), 2022 at 1pm. to discuss about

1. Confirmation of the previous meeting.
2. Add-on course for students of Mathematics for the session 2022-23.
3. Arrangement of add on classes beyond the regular class routine and distribution of syllabus among teachers.
4. Preparation of IKS related Mini Research Project by MTMA Semester - VI Students under the guidance of Departmental teachers.
5. Miscellaneous.

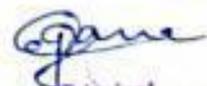

All faculty members are requested to attend the meeting positively.

Resolution Adopted of the meeting dated 09.09.2022

Resolutions taken at the meeting of the faculty members of department of mathematics of Sammilani Mahavidyalaya, Baghajatin, held on 9th of September, 2022 (Friday) at 1pm, are given below :

1. The minutes of the previous meeting have been confirmed.
Time table and Academic Calendar have been prepared and distributed among the students.
2. Add-on course for odd semester students(session-2022-2023) will be conducted by our faculty members Dr. Malay Roy and Dr. Raju Halder from 12.10.2022 and onwards. Dr. Malay Roy will take 16 classes (1 hour duration) and Dr. Raju Halder will take 14 classes (1 hour duration).
Topic decided: *The Mathematica: Math solver, programmer and drawing tool.*
3. It has been decided that add-on classes will be taken without hampering the regular classes, both in online and offline mode. Syllabus of the course will be decided by Dr. Malay Roy and Dr. Raju Halder and for enrollment of the student. a google form will be made by Dr. Malay Roy which will be shared in the student's whatsapp group of Mathematics.
4. It has been decided that some selected advanced learner students of Semester VI, MTMA will prepare a Departmental Research Project on History of Mathematics and its application(Sulva Sutra) to present day Mathematics, based on the Indian knowledge system, guided by Departmental teachers Dr. Sumita Das and Mrs. Sukti Sen.
5. Another departmental meeting will be held after the puja vacation to discuss project work and parent-teacher meetings.

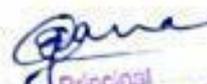

The meeting ended with a vote of thanks.

DEPARTMENT OF MATHEMATICS

**Course Name: The Mathematica: Math Solver,
Programmer and a Drawing tool**

Synopsis: We have arranged an Add-on course on Mathematica (a mathematical software) to overcome the difficulties for solving mathematical problems. This Add-on course will be of 30 hrs duration in offline mode. In everyday life and to study basic science, we face various types of problems which are solved using mathematical techniques or procedures. It may be easy or hard to solve. In either case, we can use Mathematica to handle it. In the case of Calculus or Algebra, Mathematica makes it easy and simple to do a solution of problems on it. It is also very helpful to solve differential equations and check characteristics of them. Mathematica can also be used as drawing tools. We can also do programming with it. So learning Mathematica is very much essential to those who are attached with mathematics from different areas. Hope this course is an opportunity for our students to learn a mathematical tool and to use it in their higher study.

Mathematica Syllabus for Add-on Course

1. Arithmetic operations, Modulo operator, Numerical Approximation, Formation of Mathematical Expression, Manipulating functions, List handling, Table formation, List Manipulation.
2. Solution of equation: polynomial, solution of system of equation, Numerical solution.
3. Working with Matrix: rank, determinant, transpose, inverse, Eigenvalues
4. Mathematica on Basic Calculus: Limit, Derivative, Integration (Definite or indefinite, Numerical), Sum of sequence, series, Series Expansion

Principal
Sammilani Mahavidyalaya
E.M. Bypass, Baghajatin
Kolkata - 700 094

SAMMILANI MAHAVIDYALAYA
E.M. BYPASS, BAGHAJATIN, KOLKATA - 700094

5. Plotting of functions: 2D plot, Parametric plot, 3D plot
6. Solution of differential equation
7. Module Programming; Input-Output Function, Loop (Do, While, For), Control sequence (If, If-Then-Else, Which, Switch), Continue, Break, Return, Goto, User Defined Function, Associate Programmes.

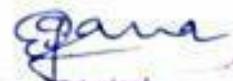

Course Outcomes: Those who learn Mathematica, they are able to write mathematical expressions in Mathematica and are able to solve mathematical problems involving natural phenomena. Here is a scope of plotting graphs and doing programs with it. As Mathematica can be used to solve mathematical problems, drawing graphs and doing programs, it gives an opportunity to do project work as well as research work. It will help us to present results in data and graphical format and to make comments on the results. Thus Mathematica will help learners for further study in various fields associated with mathematics.

Fees Structure: The course will be free of cost.

Evaluation: A practical examination will be conducted on the completion of the course.

Certificate: Certificate will be distributed after successful completion of the course and getting 60% marks.

DEPARTMENT OF BENGALI

**Course Name:- Tribal Folk: To Remember The 'Sabar'
Tribe**

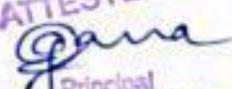

Synopsis: We have arranged an Add-on course on Bengali Folk Literature. This Tribal Folk literature is very important for our literature lover. This Add-on course will be of 30 hrs duration in offline mode. Tribal & Folk art belongs to the section of people who belong to different social groups. They belong to the primitive society. They are the ones close to nature and this thing is regional. They have a set of belief system and it is there on native way. They present their art to there on society. They belief there primitive God, Festival and take their own food from the forest.

'Sabar' Janajati – The Sabar janajati is very old primitive people and the are the Munda ethnic group. Hope this course is an opportunity for our students to learn Bengali Folk literature and use it in their higher study.

Tribal Folk Syllabus for Add-on Course

1. Livelihood of the Sabar Janajati
2. Mother tongue of the Janajati
3. The God of the Sabar
4. The festival of the Janajati
5. The dance of the Sabar
6. Folk song of the Janajati

COURSE OVERVIEW:

Data science is a multidisciplinary field that involves the use of scientific methods, processes, algorithms, and systems to extract insights and knowledge from structured and unstructured data. It combines expertise from various domains, including statistics, computer science, mathematics, and domain-specific knowledge. This Data Science course accelerates your career in Data Science and provides you training and skills required to become successful in this field. This certificate course on "Data Science" provides learners with an understanding of the fundamentals and core concepts of data science, which are essential for working in any industry.

With this consideration in mind, the current Certificate course, focusing on "Data Science," is tailored for students in the 3rd and 5th semesters within the Department of Computer Science. The course has been strategically developed so that upon its successful conclusion, students will possess a comprehensive understanding of Data Science techniques and tools.

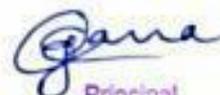

OBJECTIVES:

The objectives of a Data Science course typically revolve around equipping participants with the knowledge, skills, and practical experience needed to excel in the field of data science. The course is outlined to fulfill the following objectives –

- Provide a solid understanding of the foundational concepts of data science, including statistics, mathematics, and computer science.
- Teach data manipulation and analysis techniques using tools like Pandas and visualization libraries like Matplotlib and Seaborn.
- Introduce database concepts and teach how to work with both relational and non-relational databases for effective data storage and retrieval.

ATTESTED

8	Emerging Trends in Data Science	8.1-Introduction to NLP, computer vision, etc. 8.2-Recent advancements in the field	02	----
---	---------------------------------	--	----	------

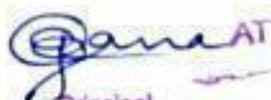

COURSE OUTCOME:

Upon completion of the "Data Science" course, participants can expect to achieve the following outcomes:

1. **Data Analysis Skills:** Participants should be proficient in manipulating and analyzing data using tools like Pandas and be able to draw meaningful insights from datasets.
2. **Programming Proficiency:** Ability to write and understand code in languages such as Python or R, which are commonly used in data science.
3. **Database Management Competence:** Understanding of database concepts and the ability to work with both relational and non-relational databases for efficient data storage and retrieval.
4. **Machine Learning Competency:** Familiarity with fundamental machine learning concepts, algorithms, and the ability to build, train, and evaluate models.
5. **Problem-Solving Skills:** Capability to apply data science techniques to real-world problems, demonstrating a problem-solving mindset.

NOTICE

Department of Geography

A meeting of the Department will be held on 16.8.2022 at 12:30 pm to discuss the agenda as mentioned in the following:-

- Confirmation of the minutes of the previous meeting.
- Framing of the routine for the newly admitted first semester class.
- Commencement of Certificate course on Computer Application.
- Distribution of ODD Semester Syllabus among the faculties.
- Miscellaneous.

All the members are earnestly requested to join the meeting.

Departmental Meeting

18/8/22

The meeting started at 12:45 pm in the Departmental staff room. The members present were —

1. Paramita Dasgupta
2. Karanveer Mishra
3. Aradanti Mukherjee
4. Nayan Ray
5. Achintya Prasadik

ADG/16/22
Date 16.8.22

The minutes of the previous meeting were read & confirmed.

The HOD placed the routine of odd Semester before the house. After some minor alterations, the house unanimously accepted the routine & it was resolved that the routine be followed henceforth for the present odd Semester class.

The HOD appreciated the effort of her departmental faculty towards ^{cashless} successful completion of two certificate courses (Total Station & Drone based remote sensing). It was resolved unanimously that the said two i.e. Certificate course on Computer Application in Geographical studies be completed within this yr. The tentative date of commencement of the said course was fixed on 1. 11. 2022, & it was further decided that the course to complete the course within November.

It was resolved further that the syllabus distribution among the faculties be same as that of previous Semester (odd) except some alteration in CC7 (Statistics).

In the miscellaneous section it was decided that the 'no objection' certificate from the Guv of the students of 5th Sem (Hons) would be collected immediately for their field trip in (P.T.O)

DEPARTMENT OF GEOGRAPHY

CERTIFICATE COURSE

Course Plan

COURSE TITLE: Computer Applications in Geographical Studies

ORGANIZING DEPARTMENT: Department of Geography

COURSE DURATION: 31 Hours

OFFERED TO: Students of 1st and 3rd semester of the Department of Geography

SESSION: 2021-2022

MODE: Offline

COURSE OVERVIEW:

Geographers have to deal with a large number of spatial data, analyze the same, interpret the results and represent the findings either in words or with the help of suitable diagrams. So, basic knowledge on computer application is very much essential for aspirant Geographers, as such knowledge enables them to access the data sources more easily, handle large data set more efficiently and analyze the data at a faster rate. Keeping this in mind, the present Certificate course, on 'Computer Application in Geographical Study', has been planned for the 1st and 3rd semester students of the Department of Geography. The course has been designed in such a manner that after successful completion of the course the students will be well versed with the techniques and tools of basic computer application and will be able to apply such techniques in facilitating geographical knowledge.

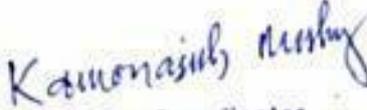

OBJECTIVES:

The course is outlined to fulfill the following objectives –

- To familiarize the students with computer.
- To enable them to access online data sources and use web based search engines.
- To enhance their skill of data management, analysis and representation.
- To make them well versed with online document writing and editing.
- To enable them to design presentation and slide show.

ATTESTED

Department of Geography
Sammilani Mahavidyalaya

COURSE OUTCOME:

On completion of the course, a student will be able to –

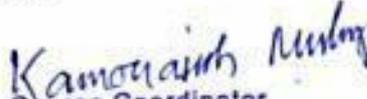

- Manage and analyze data, using statistical formula and functions, with the help of MS Excel.
- Write documents and write ups using MS Word.
- Conduct online survey using Google form, Google sheet etc.
- Extract information from Google map and Google earth.
- Get a job in the IT sector.

In a nutshell, this Certificate course will provide the students of Geography with additional skills and knowledge that are relevant to their field of study and will also enhance their employability.

**COURSE ON
ENVIRONMENTAL AWARENESS AND SUSTAINABLE
DEVELOPMENT**

ENVIRONMENTAL EDUCATION IS AN INTERDISCIPLINARY FIELD TO PROMOTE AWARENESS, KNOWLEDGE, AND UNDERSTANDING OF THE ENVIRONMENT AND ITS APPLICATION FOR THE SUSTENANCE OF THE SOCIETY. IT EMPHASIZES THE IMPORTANCE OF SUSTAINABLE PRACTICES, THE CONSERVATION OF NATURAL RESOURCES, AND THE PROTECTION OF ECOSYSTEMS. ENVIRONMENTAL EDUCATION AIMS TO INCULCATE A SENSE OF RESPONSIBILITY AND INSPIRE INDIVIDUALS TO BECOME MORE RESPONSIBLE FOR PROTECTION OF NATURAL RESOURCES AND ENVIRONMENT FOR A MORE SUSTAINABLE FUTURE.

WITH A VIEW OF INTEGRATING ENVIRONMENTAL AWARENESS AND SUSTAINABILITY IN A HOLISTIC APPROACH THE DEPARTMENT OF MICROBIOLOGY HAS ARRANGED AN ADD-ON COURSE ON ENVIRONMENTAL AWARENESS AND SUSTAINABLE DEVELOPMENT TO ACQUIRE AN AWARENESS AND SENSITIVITY TO THE TOTAL ENVIRONMENT. THIS COURSE WILL GUIDE THE STUDENTS TO EVALUATE ENVIRONMENTAL PARAMETERS AND EDUCATION PROGRAMMES IN TERMS OF SOCIAL, ECONOMIC, ECOLOGICAL AND AESTHETIC FACTORS. THIS COURSE WILL ALSO ENCOURAGE THEM TO BE ACTIVELY INVOLVED AT ALL LEVELS IN WORKING TOWARD ENVIRONMENTAL PROTECTION AND PRESERVATION. ENVIRONMENT IS THE KEY FACTOR OF OUR WELL BEING WHETHER IT IS HEALTH OR MENTAL SO THIS COURSE AIMS TO INBUILT A SET OF VALUES AND FEELINGS OF CONCERN FOR THE MOTHER NATURE.

DEPARTMENT OF MICROBIOLOGY

ENVIRONMENTAL AWARENESS AND SUSTAINABLE DEVELOPMENT

Environmental education is an interdisciplinary field to promote awareness, knowledge, and understanding of the environment and its application for the sustenance of the society. It emphasizes the importance of sustainable practices, the conservation of natural resources, and the protection of ecosystems. Environmental education aims to inculcate a sense of responsibility and inspire individuals to become more responsible for protection of natural resources and environment for a more sustainable future.

With a view of integrating environmental awareness and sustainability in a holistic approach the Department of Microbiology has arranged an Add-on course on **Environmental awareness and sustainable development** to acquire an awareness and sensitivity to the total environment. This course will guide the students to evaluate environmental parameters and education programmes in terms of social, economic, ecological and aesthetic factors. This course will also encourage them to be actively involved at all levels in working toward environmental protection and preservation. Environment is the key factor of our well being whether it is health or mental so this course aims to inbuilt a set of values and feelings of concern for the mother nature.

Syllabus for the course

Unit	Topic
1	Introduction to environmental studies: Multidisciplinary nature of environmental studies, Scope and importance, concept of sustainable development Ecosystems: Definition, structure and function of ecosystem, energy flow in an ecosystem, food chain, food web and ecological succession, Different ecosystems
2	Natural Resources: renewable and non- renewable Land resources, land degradation, soil erosion and desertification, deforestation causes and impacts, use and overexploitation of surface and ground water, growing energy needs, renewable over nonrenewable energy source
3	Biodiversity and conservation: levels of biological diversity, genetic, species and ecosystem diversity, Biogeography zones of India, biodiversity pattern, biodiversity hot spots, habitat loss, poaching of wildlife, man- wildlife conflicts, conservation of biodiversity
4	Environmental Pollution: types, causes, effects, controls, nuclear hazards and human health risk, solid waste management, climate change, global warming, ozone layer depletion, acid rain and its impact Environmental Laws: Environmental Protection Act; Air (Prevention and

	control), Water (Prevention and control) , wildlife protection act, forest conservation act, International Agreements: Montreal and Kyoto protocol, The Chemical Weapon Convention(CWC)
5	<p>Human population and growth : impacts on environment, human health and welfare, carbon foot print</p> <p>Disaster Management: floods, earthquakes, cyclones and landslides Different environmental movements</p> <p>Environmental ethics: Role of Indian and other religions and cultures in environmental conservation</p>

Course Outcome

After the completion of this course students will be able to

- understand the concept of environment and the associated terminologies.
- understand and analyze the impact of 'environmental degradation' and 'resource depletion'
- understand the nature of environmental challenges and ways to combat these issues.
- relate environmental issues to the larger context of sustainable development.

Course Duration : 30 Hours

Eligibility of Participants: Only bonafide and regular students of the college, who are enrolled for Graduation in Microbiology are eligible

Fees Structure: The course will be free of cost.

Evaluation: A Grand Viva will be conducted on the completion of the course.

Certificate: Certificate will be distributed after successful completion of the course.

ADD ON COURSE (2022-2023)

Course Title

BASIC SAFETY PRACTICES IN CHEMISTRY LABORATORY

Organizing departments and resource persons

Department of Chemistry, Sammilani Mahavidyalaya and their respected teachers will conduct this course.

1. Dr. Shefali Pal (HOD)
2. Prof. Sumit Pal
3. Dr. Krishnendu Aich
4. Dr. Durba Ganguly
5. Dr. Senjuti Banik
6. Prof. Sandipan Mallik

Course duration and offered to

This course will be started on 4th November, 2022 to 12th April 2023 and offered to 3rd sem honours and general students. Duration of this course will be 30 hours.

Course fee

This course is totally free for the students.

Mode

This course will fully conduct through offline mode.

Course overview

Working in a laboratory, you can get exposed to a variety of hazards, making it a potentially dangerous environment. Because of this, it is essential to take proper precautions and implement safety guidelines and to ensure you are safe while working in the laboratory.

Regular laboratory safety training is essential to ensure the scientists in the lab are conversant with the safety guidelines and procedures and can implement them in their daily working.

This laboratory safety training course covers the fundamentals of laboratory safety and will help you ensure safety for you and your colleagues in the laboratory. The course is suitable for scientists working in pharmaceutical laboratories, food testing laboratories, chemical

laboratories, petrochemical laboratories and a variety of other laboratories where toxic chemicals or microbiological hazards are present.

Course objectives

The Science classroom laboratory with its equipment, glassware, and chemicals has the potential for accidents. In order to avoid dangerous accidents, or to minimize their damage, precautions must be taken by every student to ensure the safety of everyone working in the laboratory. So the main objectives of this course are:

- This course offered to learn safety rules for working with chemicals and participating in a safe manner when carrying out lab procedures.
- Students can complete the Safety and equipment quiz with teacher satisfaction.
- This helps the students to Handling Chemicals safely.
- Students Use chemicals only as directed and for their intended purpose.
- This course offered to the students to identify and understand the various functions of laboratory equipments.
- Students will learn which chemicals should be kept in Desicator, which chemicals should be kept in dark and which chemical should be kept under kerosene and why?
- Students will learn which chemicals are toxic and which one should be careful while working in the lab.

Course content

1. The safety Do's and Don'ts for students
2. Common Safety Symbols
3. Knowledge about common toxic chemicals and safety measures in their handling
4. General rules for handling chemicals
5. Cleaning and drying of glass wares

Course outcome

To minimize the risk of injury or illness to laboratory workers by ensuring that they have the training, information, support and equipment needed to work safely in the laboratory

COURSE PLAN

- Course Title : Add-on course on Python
- Course Overview: It introduces the main idea of the course and describes the topics or concepts that the course covers.
- Course objectives: The course is designed to provide Basic knowledge of Python, Python programming is intended for software engineers, system analysts, program managers and support personnel wish to learn the python language.
- Organising Department : Physics
- Name of the resource persons : Ipsita Sen & Sayantani Kar
- Course Duration : 30 hours
- Mode of teaching : Online & offline
- Course Content : Theory Classes -18 hours
 - Introduction - 01hr
 - How to write a program – 2.5hrs
 - What can the possible syntax errors – 01hr
 - Simple programs on mathematical functions- 4.5hrs (more than 2 classes)
 - Programs on finding even, odd, prime numbrs etc. – 4hrs
 - Programs on array – 2hrs
 - How to introduce character in a program – 3hrsPractical Classes -12 hours
- Course Outcome : To build basic programs using fundamental programming constructs like variables, conditional logic, looping and functions.

ADD ON / CERTIFICATE COURSE
ON
ENVIRONMENTAL HISTORY : AN
ANALYSIS

Attested
Rana
Principal
Sammilani Mahavidyalaya
E. M. Bypass, Baghajatin
Kolkata - 700 094

COURSE OVERVIEW :

Environmental History is an interdisciplinary study of the relation of culture , technology, nature. It deals with the history of human impacts on nature and the interactions between human and nature. Our general concept is that the natural environment comprises of landscape ,rivers , climate & weather , animals, plants etc. This was true in traditional society. But these natural factors are also important for industrial societies. We must understand how human has been affected by natural environment in the past and how they have affected that environment and with what results. Environmental history has emerged as a new field of study as environmental problems began to rise up as the global political agenda.

COURSE CONDUCTOR : Department of History, Sammilani Mahavidyalaya.

COURSE DESIGN : CERTIFICATE COURSE

COURSE DURATION : 30 Hrs.

OBJECTIVES:

- To impart basic knowledge about the environment and its allied problems.
- To create awareness about environmental problems among people.
- To develop an attitude of concern for the environment.
- To show how environmental change and human action are interconnected.

COURSE OUTCOME :

Students by participating in this course,

- Will gain knowledge on natural processes that sustain life and govern Economy.
- Will develop critical thinking for shaping scientific, social, economic, and legal strategies for environmental protection and conservation of bio- diversity, Social equity and sustainable development.
- Will acquire values and attitudes towards understanding complex environmental-economic-social challenges which will enable them to participate actively in solving current environmental problems and to prevent the future ones.
- Will adopt sustainability as a practice in life, society and industry.

BENEFITS :

- Environmental history broadens the subject matter of conventional history.
- Helps us to understand and explore the interconnected nature of services, the environment provides us such as agricultural production, water purification, timber & climate regulation ,spiritual & leisure activities.
- Promotes sustainable resource management and conservation in the Present and future.
- Increase awareness for wellbeing.
- Strengthen communities.

ADD-ON COURSE (2022-23)

CERTIFICATE COURSE ON FUNCTIONAL SANSKRIT LANGUAGE

Course Title

Functional Sanskrit language

Organizing Department & Resource persons

Department of Sanskrit, Sammilani Mahavidyalaya and their respected teachers will conduct this course.

1. Dr. Partha Sarathi Bhattacharya (HOD)
2. Dr. Sudeshna Basu
3. Rajeswar Sardar

Course duration and offered to

This course will be started on 14th November, 2022 to 30th November, 2022 and offered to 3th and 5th Semester students. Duration of this course will be 30 hours.

Course fee

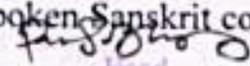

This course is totally free for the students.

Mode

This course will fully conduct through offline mode.

Course Overview

Illustrious Sir William Jones once said "The Sanskrit language, whatever be its antiquity, is of a wonderful structure; more perfect than the Greek, more copious than the Latin and more exquisitely refined than either..." Sanskrit is one of the age-old indigenous languages and has inglorious past and also been deeply rooted in our literature, culture and society. Language is nothing but a skill of communication. If we do not able to communicate, a vast domain of indigenous knowledge system (IKS) will became very tough to understand. Being kept in mind Department of Sanskrit has organized a 30 hours Vocational/Spoken Sanskrit course which will introduce to our students why we

Head

Bachajatin - 771 014

should learn Sanskrit Language? This course will also helpful for them to overcome the obstacles to speak a third language.

Course objectives

- To make student able to speak communicative Sanskrit fluently
- To make them able to translate form different language to Sanskrit
- To provide them present situation about Sanskrit studies across the world
- To encourage them for higher studies
- To open up various fields regarding Sanskrit studies

Course Content

It comprises...

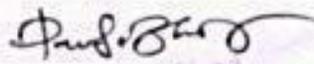

1. Fundamental knowledge of Sanskrit grammar (like conjugation, declension, case-ending, prefix, suffix, voice change and so on),
2. Proper accentuation (how to pronounce perfectly),
3. Mode of translationlike comprehension, paragraph writing, letter writing (writing letter in Sanskrit),
4. Basic vocabulary (like *Amarakoṣa*)

Course outcome

- Ability to communicate in Sanskrit fluently
- Ability to overcome anew language learning and difficulties
- Ability to reciprocate with bigger world
- Ability to update oneself with larger outlook
- Ability to think wider and assimilate other knowledge

Course benefits

- Fluency in Spoken Sanskrit
- Personality grooming
- To make Sanskrit more easy for those who don't have any knowledge
- It will be benefited for those students who has IDC in Sanskrit
- It will help them to communicate in larger academic filed in future

Self Defence Training Programme

Self defence can be termed as an act by any individual or groups involving reasonable force to defend one's self.

Objectives:

The Self Defence Training Programme for college girls was implemented by the Women's Cell of Sammilani Mahavidyalaya, as part of the Silver Jubilee celebrations of the college. The objectives of the program were as follows.

To make them able to defend against unexpected physical assault.

To build up self confidence and physical prowess.

To enable girl students combat different types of violent situations arising against them.

To provide insights about the different types of self protection and to be aware of unruly situations.

To provide demonstration on different Self Defence techniques.

Overview:

Enhancement of self confidence among girls is a bare necessity to enable them to be strong both physically and mentally to tackle any untoward situation they come across in their day to day life. On 17th November to Nov 27, 2022 a 10 days training programme was organised by the Women's Cell under the guidance of trainer Shian Jhuma Das who was invited to train all the girl students about various self defence techniques. The students attended the program with great enthusiasm. The main purpose of the program

ATTESTED
Shian Jhuma Das
Principal
Sammilani Mahavidyalaya
E.M. Bypass, Baghojatin
Kolkata - 700 094

Shian Jhuma Das
In-charge
Women Cell
Sammilani Mahavidyalaya

was to make all aware of their inherent power to fight against any kind of attack. Now a days many roadside attacks are witnessed like chain snatching, eve teasing, rape, molestation etc. To keep oneself safe from such attacks self defence techniques are very important. Many defence techniques were demonstrated by the trainer and many students also participated in it.

Outcomes of the Programme:

After completion of the training programme the following outcomes was observed.

The confidence level of girl students increased.

The participants were emotionally mentally and physically prepared to deal with any attack or untoward incident.

In some cases to defend and raise an alarm.

They were made aware on escaping techniques against different hold and chokes.

They were made aware on ground fighting techniques and use it as per their need.

Benefits:

One of the major impacts of this activity was instilling a sense of fearlessness and enhancing mental and physical strength among the girls. The participants felt more confident and secured after learning techniques to defend themselves in times of crisis.

This training enhanced the physical strength of the girls and a very positive trend in terms of interest was witnessed in college when this programme was being imparted.

CERTIFICATE COURSE ON VALUE EDUCATION (SPECIAL REFERENCE TO SRIMAD BHAGAVAD GITA)

Course objective:

- to help students develop a sense of morality.
- To promote humane qualities like honesty, integrity, empathy.
- To help student grow sense of belonging, compassionate attitude and we-feeling.
- To help them build strong but polite character, personality development.

Course curriculum design:

Stage1- Definition of value education and its necessity in modern times. (6 lectures/ 6 hours.)

Stage 2- Ideas of moral values (both Indian and Western) 8 lectures/ 8 hours

Stage 3- Special reference from 2nd chapter (Atma tattva) of Srimad Bhagabad Gita. (10 lectures/ 10 hours.)

Stage 4- Ancient Moral storytelling and Biography of Great men. (8 lectures/8 hours)

Stage 5- Assignment and Evaluation. (3 hours)

Course duration: at least 35 hours (tentatively)

Course instructor: Department of Philosophy, Sammilani Mahavidyalaya

Resource Persons: 1. Smt. Shibani Bhattacharya

2. Sri Ranjit Shaw

Course outcome:

- To help students learning a soft skill.
- To cultivate among them important values and virtues like kindness, compassion, sympathy, empathy etc.
- To enhance the decision-making capacity.
- To develop among them other -related interests and helping attitude.

Course benefits:

- It focuses on the holistic character building of future citizens.
- It educates students with a life-enhancing understanding from moral point of view.
- It helps students to some extent know how to shape their future.
- It also teaches how to behave and react in future work place.
- It makes them understand the mutual relations among friends, seniors, and elders.

COURSE OVERVIEW: Tourism in India is economically important and ever-growing. World Travel and Tourism Council calculated that Tourism supported 32.1 million jobs in the year 2021. Various States and Union Territories of India attract tourists from all over the world, mainly due to the cultural and geographical diversity. So the future of the Indian Tourism Industry appears promising. India ranks 6th according to WTTC in terms of Travel & Tourism total contribution to GDP IN 2022. Govt. of India has introduced some schemes to promote Tourism Industry. For e.g under Adarsh Smarak Scheme, ASI has identified 100 monuments that will be redeveloped and upgraded to Model Monuments. These monuments will have facilities such as Wi-Fi, security, signage, encroachment – free areas and interpretation centres among others. Swadesh Darshan Scheme envisioned to synergise with other Govt. schemes to drive growth in the tourism sector and help in the integrated development of theme-based tourist circuits in the country. The Prasad Scheme aims to achieve integrated development of pilgrimage and heritage destinations in a planned sustainable manner, in order to provide a wholesome religious and heritage tourism experience.

We, the Department of History, offer this course to our students with this view that after graduation there will be more avenues of earning other than teaching ,traditional office jobs. By addressing challenges, embracing innovations and nurturing responsible tourism practices, Our students will be able to unlock its full potential----- this is our dream.
